📍 Mumbai, India

Education

B.Tech in Information Technology

St Francis Institute of technology

📅 May 2026 - present

CGPA - 7.00

Class XII SSC

Nirmala Memorial Junior College of science

📅 July 2022 - May 2024

Projects

CloudVault (Major Project)

Live Preview: <https://www.cloudvault.co.in>

- Developed a secure cloud storage platform inspired by Google Drive.
- Implemented secure authentication using Firebase Authentication, JWT, Google OAuth, and Email OTP.
- Integrated AWS S3 for scalable cloud storage with secure file upload, download, preview and sharing.
- Built file and folder management, profile management, password reset, storage dashboard, and activity tracking.
- Developed REST APIs using Node.js, Express.js, Prisma ORM, and PostgreSQL.
- Successfully deployed the application using Vercel and Render.

Tech Stack: React.js, Node.js, Express.js, PostgreSQL, Prisma ORM, Firebase, AWS S3, JWT, Tailwind CSS.

AI Air Quality Monitoring Platform (Under Development)

Live Preview: <https://air-quality-rv98.onrender.com/>

- Developing an AI-powered Air Quality Index (AQI) monitoring platform that collects and analyzes live environmental data from multiple AQI sources.
- Implementing data preprocessing, statistical analysis, and visualization using NumPy, Pandas, Matplotlib, and Plotly.
- Building a Python-based backend using Flask to aggregate AQI, weather, and pollutant data from multiple REST APIs.
- Managing and processing environmental datasets using SQLite and Jupyter Notebook for analysis and experimentation.
- Exploring machine learning techniques to identify pollution trends and support future AQI prediction features.
- The project is currently under active development, with the frontend dashboard and interactive visualizations planned for future releases.

Tech Stack: Python, Flask, NumPy, Pandas, Matplotlib, Plotly, Jupyter Notebook, SQLite, REST APIs, Git, GitHub.

Skills

Technical Skills

- Languages: Java, JavaScript, Python
HTML5, CSS3, SQL
- Frontend: React.js, Vite, Tailwind CSS, HTML5, CSS3
- Backend: Node.js, Express.js, REST APIs
- Database: PostgreSQL, Prisma ORM, SQLite
Firebase
- Authentication: JWT, Google OAuth, Firebase Auth, Email OTP
- Cloud & DevOps: AWS, Docker, Vercel, Render, Linux
- Version Control: Git, GitHub
- Tools: VS Code, Postman, Jupyter Notebook
npm
- Core CS: Data Structures & Algorithms
OOP, DBMS, Operating Systems

Tools Section

- VS Code
- Postman
- AWS
- Vercel
- Render
- Git & GitHub
- pgAdmin

Certification

- The Complete Full-Stack Web Development Bootcamp
- AWS Cloud Practitioner (In Progress)

Area of Interest

- Full Stack Development
- Cloud Computing
- Artificial Intelligence
- Backend Development
- DevOps
